

YOKESH T C

Frontend Developer

Walajapet, Tamil Nadu | yokesh4224@gmail.com | +91 89253 50525 | [linkedin.com/in/yokesh04](https://www.linkedin.com/in/yokesh04) | github.com/TCYokesh

PROFESSIONAL SUMMARY

Frontend Developer with a B.Tech in Information Technology (2025) and hands-on experience building responsive, cross-browser web applications using HTML5, CSS3, and JavaScript (ES6+). Proficient in DOM manipulation, event-driven programming, mobile-first design, and UI/UX principles. Independently delivered 3+ end-to-end projects demonstrating strong problem-solving ability, clean code practices, and attention to detail. Seeking a Frontend Developer role in a collaborative Agile team.

TECHNICAL SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, DOM Manipulation, Form Validation, Cross-Browser Compatibility

Frameworks & Libraries: React.js (Components, Props, State, Hooks), npm

Responsive Design: Mobile-First Design, Flexbox, CSS Grid, Responsive Web Design, Viewport Optimization

UI/UX: UI Design Principles, Web Accessibility (WCAG basics), Semantic HTML, Clean Code

Tools & Version Control: Git, GitHub, GitHub Pages, VS Code, Chrome DevTools, Browser Developer Tools

Web Concepts: SDLC, Agile Methodology (familiar), REST API (basic), Debugging, Code Review

Other: MySQL, Java, C

PROJECTS

Rock, Paper, Scissors Game | HTML5 CSS3 JavaScript (ES6+) | [Live Demo](#)

- Developed a fully interactive browser-based web application using vanilla JavaScript (ES6+) with zero external libraries or frameworks.
- Implemented randomized game logic and real-time score tracking using DOM manipulation and event listeners, with zero page reloads.
- Ensured cross-browser compatibility and responsive design, delivering consistent UI performance across desktop and mobile viewports.

ToDo Application | React.js JavaScript (ES6+) | [Live Demo](#)

- Built a single-page dynamic task management application in React, supporting CRUD-style operations (create, read, delete, complete) using component state and props.
- Utilized React Hooks (useState, useEffect) for state management and side effects, structuring the app into reusable, modular components.
- Designed a mobile-first responsive UI using CSS Flexbox, tested across screen widths from 320px to 1440px for full cross-device compatibility.

Weather App | React.js JavaScript (ES6+) | [Live Demo](#)

- Built a responsive weather application in React that fetches real-time weather data from a third-party API using fetch/axios and async-await.
- Managed application state with React Hooks (useState, useEffect) to handle API loading, error states, and dynamic UI updates based on search input.
- Designed a clean, mobile-first interface displaying temperature, location, and weather conditions, styled with CSS Flexbox for consistent rendering across devices.

PROFESSIONAL SKILLS

- Communication Skills** — able to clearly convey technical ideas to both technical and non-technical stakeholders.
- Problem Solving** — breaks down complex UI/UX challenges into clean, structured, and efficient code solutions.
- Analytical Thinking** — evaluates design and code trade-offs logically to make well-reasoned development decisions.
- Team Collaboration** — experienced working in group projects, contributing ideas and supporting team goals effectively.
- Adaptability** — quickly picks up new tools, frameworks, and workflows to meet evolving project requirements.
- Willingness to Learn** — proactively builds skills through self-directed projects, courses, and hands-on practice.

EDUCATION

Bachelor of Technology (B.Tech) — Information Technology

Saveetha School of Engineering, Tamil Nadu | 2021 – 2025 | CGPA: 7.9 / 10
